The Daily Gazetteer.

SATURDAY, JUNE 7. 1740. No. 1548.

Yesterday arriv'd a Mail from Holland.

Berlin, May 27. O. S.

THE King, who arriv'd here the 20th from Potsdam upon the Death of his Father, receiv'd that Evening the Oath of Allegiance from the Garison of this City, which was drawn out for the Purpose under Arms, and made three Huzza's, wishing *Long Life to our Most Gracious Sovereign* Charles-Frederick. The Gates of the City were shut for 48 Hours, so that no Messenger was suffer'd to go out, not even one Courier of the Foreign Ministers. The King only dispatch'd 4 Captains to carry the News of the King's Death to the Courts of Brunswick, Bareith, Anspach, and Schwedt. The next Day, viz. the 21st, when his Majesty went to Charlottenbourg, he was accompany'd thither by Prince William-Augustus his Brother, and several of the Nobility; of which Number was the Count de Gotsleben, who was that Day declar'd Marshal of the Court to the new Queen in the Room of the Count de Wolden. On the 22d the Veldt-Marshal Count de Borck and the other Ministers of State went to Charlottenbourg, where the King held a Council, in which he order'd all his Magazines and Granaries to be set open for Relief of the Poor who have been the Sufferers by the Scarcity of Corn; and he has since issu'd several other Orders, that have gain'd the Hearts of his People. When on Sunday last his Majesty came from Charlottenbourg to this City, he went to Divine Service at the Calvinists Church in the Morning, and at the Lutheran Church in the Afternoon, and in the Evening his Majesty return'd to Charlottenbourg. The prodigious Acclamations of the People shew'd the great Joy which the King's Presence gave them; and his Majesty to shew how much he was with that Testimony of their Loyalty, distributed a considerable Sum of Money to be distributed among the Multitude that follow'd his Coach, and made the Air ring with their loud Huzzas and Benedictions on him. The King proposes to stay 3 or 4 Weeks at Charlottenbourg, in order to make several Regulations which he shall think necessary, as well with Regard to his Affairs, as to other Affairs.

On Sunday Notice was given from the Pulpits of the Churches, that King Frederick-William died the 31st of this instant May, with the most perfect Resignation to the Will of the Almighty, after having given his Blessing to all the Royal Family, and particularly to the Prince his Successor, to whom he spoke in very moving Terms. It was moreover declar'd, that his late Majesty being fully sensible of his Duty to God in his last Moments, said these Words to the Persons who then attended him, *Call upon the Lord, that he may receive my Soul*, and that he soon expir'd. Those who stood by his Bedside besides his present Majesty the Queen Dowager and the Royal Family, the Prince of Anhalt-Dessau, to whom his Majesty bid Farewel in the most kindly Terms.

Baron CHARLES LEWIS de POLLNITZ*, Chamberlain of the Court, whom the late King honour'd with his Favour, is no less a Favourite with his present Majesty, who has given it him in Charge to order every thing relating to the Funeral Pomp of the deceas'd King, and to order the Mourning that is to be observ'd upon that Occasion, for which Purpose every thing is to be got ready by the 4th of June next. All the Nobility, the Ministers of State, and the Generals are to wear Weepers on their Sleeves for the short Mourning, and the Ladies are to conform to the Practice of other Courts upon such Occasions. The Veldt-Marshal Prince of Anhalt Dessau having waited upon the new King, and wish'd him a long and happy Reign, set out immediately for Magdeburg of which he is Governor. The Corpse of the late King will be interred in the Marble Tomb which he order'd to be made some Years ago at Potsdam in the Church belonging to the Garison; mean time it lies in State at Potsdam, the Persons who are appointed to attend it Day and Night, and who are to be reliev'd in their Turns, being a Lieutenant General, a Major General, two Colonels, two Lieutenant Colonels, four Captains, and two Valets de Chambre. The Queen Dowager and the new Queen continue their Residence in Town. M. de Manchausen, the King of Great Britain's Minister as Elector of Hanover, is arrived here by Order and in the Name of his Master to condole the new King on the Death of his Father, and to congratulate him on his Accession to the Throne.

Petersburgh, May 22. N. S. M. Wolinski is still confin'd close Prisoner in one of the Apartments of the Admiralty. He has produc'd several Pleas in his Justification, but in divers Articles he has not explain'd himself clearly. No body is admitted to him but the Commissioners appointed to interrogate him. We are assur'd that the Czarina has granted the same Pension to the young Duke of Holstein Gottorp as the late Duke his Father had, and that she has declar'd herself very much in favour of his Interests.

Stockholm, May 31. N. S. A Preacher who had more Zeal than Knowledge, took it into his Head a few Days ago to declare his Opinion in the Pulpit on the present State of Affairs, and treated the French Ambassador the Count de St. Severin very coarsely; which being reported to that Ambassador, he was pleas'd to express his Contempt of it, not without his Compassion for the Zeal of the Preacher; but the Court has censur'd him for his Rashness, and threaten'd him with a severe Punishment if he concern'd himself with any thing in his Pulpit but the Instruction of his Flock.

Dantzick, June 2. N.S. Some Letters from the North insinuate, that some new Discoveries have been made in Russia, and that thereupon the Court has order'd divers Persons to be apprehended; but tho' the Letters from Mittau mention the same thing, 'tis necessary to wait for a Confirmation of it. Letters of May 23 from Petersbourg say, that Mr. Finch the British Minister is arriv'd there, after having receiv'd great Honours in his Passage thro' Livonia and Esthonia 'Tis not doubted but the Arrival of that Minister will give Spirit to the Negociations in Russia.

Cadiz, May 17. The Chamber of Commerce having engag'd to advance a considerable Sum to the King, has resolv'd to borrow a Part of it abroad, and the Produce of the Indulto which the Court is to raise upon the Effects which came by the Ships from Buenos Ayres is to be employ'd in Repayment of the Loan. The Count de Clavijo, who sail'd a Fortnight ago from Carthagena for Ferrol, met with a violent Storm by which his Squadron receiv'd much Damage, and was oblig'd to put back to Carthagena.

Rome, May 28. N. S. The Affairs of the Conclave have taken quite a new Turn since our last. The strong Party that was form'd for Cardinal Gotti is declin'd. Some Cardinals have since proposed Cardinal Aldrovandi, and others Cardinal Corradini. The former has thank'd the Sacred College for the Honour they intended him, and the latter had done the very same thing in publick a Day or two before, but desired to be excused from accepting it, because of his being 83 Years of Age. Cardinal Delci is now upon the List. Cardinal Cenci is so ill in the Conclave that he has made his Confession to the Grand Penitentiary and received the Sacrament, which has awakened the Attention of Cardinal Coscia, who has his Archbishoprick of Benevento in View, and hopes to be advanced to it by the new Pope. Cardinal Sinzendorf has a severe Fit of the Gout in the Conclave. So many of the Capuchin Friars arrive here daily from divers Parts for the Election of their General, that we expect 800 at least.

LONDON.

Extract of a Letter from Madrass, (by way of Aleppo) dated Sept. 3. 1739.

'The Arlington arrived from Bengal the 26th ult. with an Account of a Storm which happened the May before. The Resolution, Capt. Bagwell, from London and Bombay, and the Prince of Orange, Capt. Duce, a Country Ship, were at the Braces, Sands so called at the Mouth of Bengal River, and are either lost or gone to Sea and not heard of. Mr. Williamson very happily went in a Sloop and got safe to Calcutta.

Extract of a Letter from Bombay, dated Decemb. 20. 1739. by way of Aleppo and Gombroone.

'The Prince William, Capt. Langworth, arrived here the 18th Sept. 1739. She touched at Madagascar, and brought from thence one of the 16 Men who remained on board the Sussex when deserted. He is very sick, but gives a perfect Account of that sad Affair. These brave, honest Men soon pump'd out what Water had been shipped by the Badness of the Weather, and carried her safe to Madagascar. She proved tight, and free from any Leak: They got into a Port, by the Fellow's Description somewhere near St. Augustine's Bay, and being apprehensive that the Natives designed to take Advantage of their Weakness, they set Sail for Mosambique, but in their Passage unhappily run on the Shoals of Bassas de India, to the N. W. of St. Augustine's Bay, where the Ship was stranded and the People all lost, except a few that got into the Pinnace and put back to Madagascar, and of those few only this Man is left alive.

'They also write, that they had had a Storm on Nov. 10. and that a Europe Ship (supposed to be the Prince William, Capt. Langworth) with three of the Company's Grabs, with 100 Europeans in each Grab, were in it; that the European Ship was returned and could give no Account of the Grabs, being separated in the Storm'

And Letters from Gombroon of the 30th of January (via Aleppo) say, that Capt. Rigby with the said three Grabs were lost in the Storm on the said 10th of November off of Goa.

Letters from Surat say, that the Scha Nadir had married one of the Princesses of the Empire, and his Son another, and had replaced the Great Mogul on his Throne; but that on his Return he found the Bridges on the River Ottock broken down, but repairing them, they were broken down again, by which he left a great Part of his Treasure.

That Basseen had surrendered to the Morattoes on Capitulation, and that they talk'd of besieging the Town of Deman.

That the Siege of Goa was raised by Payment of 75000 l. and agreeing to pay 40 per Cent. on all Duties.

The Defence, Capt. Coats, from Mocha for London, sailed the 15th of September 1739.

We hear, that Mr. George Pembroke of St. Albans in the County of Hertford is appointed one of the Masters Extraordinary in the High Court of Chancery.
